

ADFORS PROTECTIVE INDICATOR MESH

GlasGrid® IM

Self-adhesive

The Visible Choice for Bridge Protection

Your Partner for Innovative Textiles

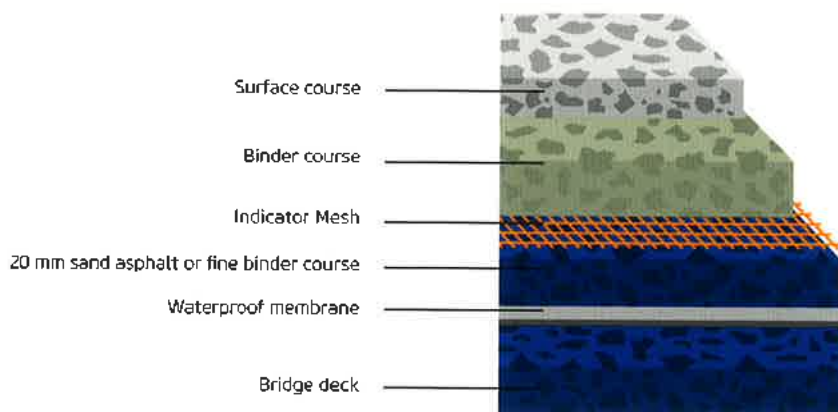

Indicator Mesh - visibly better

- Fluorescent orange, self-adhesive reinforcing mesh forms a protective indicator layer for bridge decks and sensitive areas
- Easy visibility during the milling process eliminates the risk of damaging the extremely sensitive waterproofing membrane
- Self-adhesive component allows for easy installation by hand or by machine, without creep or displacement during the compaction process
- A cost-effective alternative – Indicator Mesh provides savings of up to 20% when compared to red sand asphalt

Indicator Mesh is part of the GlasGrid® family of products.

TROUBLE WITH YOUR ROAD?
