JKR @ Kubu Gajah

SUPER FIBER MIX

3D REINFORCEMENT

The quality of **SUPER FIBER MIX (SFM)** has been proven all over Malaysia. Since 2013 SFM has been used in over **7.95 million m² of roads (2,276 lane - km)**. Our clientele include Lembaga Lebuhraya Malaysia (LLM), Jabatan Kerja Raya (JKR), local authorities, highway concessionaires (PLUS, SDE, DASH & PROLINTAS) and many more. Certified by JKR and LLM under **Road Material Approved List (RMAL)**. SFM is recognized internationally and approved in Malaysia.

Superior performance with **Aramid Fiber** reinforcement technology:

- Tensile Strength of 2,758 MPa (**6.5 times stronger than steel**)
- Enhanced Resilient Modulus value
- Increased Marshall Stability
- Increased Tensile Strength Ratio

SFM project by DBKL in Jalan Kuching (2013) resulted in **ZERO MAINTENANCE for 10 YEARS & COUNTING.**

ADVANTAGES

- ✓ PROVEN TECHNOLOGY
- ✓ REDUCES RUTS & CRACKS
- ✓ STRONG & DURABLE
- ✓ SEMI RIGID PAVEMENT
- ✓ COST EFFECTIVE
- ✓ LESS MAINTENANCE
